

Hockey

Hockey By Cruz

On Monday for whole school sport we have been learning to play hockey. The skills that we've learnt so far are: dribbling and pushing. We had to push the ball without swinging the hockey stick. The next thing that we learnt is safety at school. you do not put the hockey stick up high past your neck. Then we did dribbling the ball around cones to learn control of the ball. Then we did pushing we had to put one foot in front of the other and push the ball.

Assembly hosted by junior class

Assistant Director of Education, Mr Ash King visited the school, taking the opportunity to have a look at our school grounds, future planning, and enjoyed the opportunity to meet the students.

From the Principal's desk

Parents/Caregivers,

Welcome back to Term Two. This term is set to be a very busy term. In week two, teaching staff had a School Development Day where the Midwest Principal Advisor attended to support in developing our school strategic and operational plans. We also had a teacher strike and the opportunity to give the sports shed a good clean out.

This term, the senior room students will be participating in the Winter Carnival which is being hosted by Badgingarra PS, and hosted at Jurien Bay. Our students will be playing soccer. We have also commenced training in week 4, ready for Cross Country at Eneabba next term (Yr3-6).

Thank you to parents who nominated to be on the School Board. We still have a staff nomination and election to be held and then will be able to announce our School Board and begin our meetings.

In week three, the Assistant Director of Education, Mr Ash King visited the school, taking the opportunity to have a look at our school grounds, future planning, and enjoyed the opportunity to meet the students.

Lastly, as the weather cools, please remember to make sure students are wearing their school uniforms to school. If you need to purchase new uniforms, please call into the office to organise the purchase of winter uniforms.

Junior Room

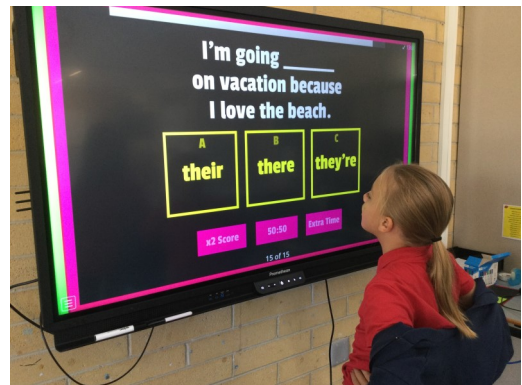

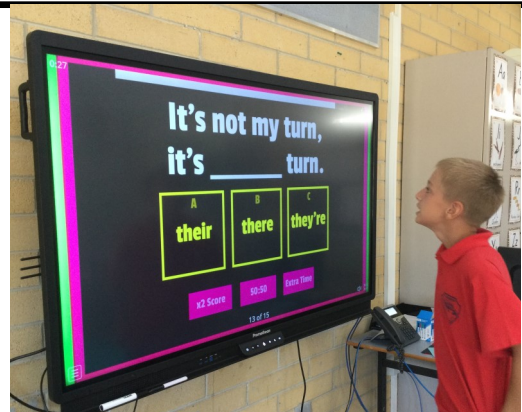

The students in the junior room worked really hard to draw some fantastic zebras during art and learnt how to make some really cool paper planes in their science lesson.

Senior Room

In English the senior class has been learning about persuasive writing with some really good persuasive work being written by the students. The students have also had the chance to do some fun interactive learning in a multitude of subjects on the interactive whiteboard.

We shouldn't be allowed to watch as much tv as we want

26/3/24

I believe that we shouldn't be allowed to watch as much tv as we want because if you watch too much tv your eyesight will get bad.

Firstly, if you watch too much tv the power bill will cost more and more but if you get addicted your eyes will be glued onto the screen then you'll get sick.

Secondly, you can see inappropriate stuff on the tv but if you don't go out you'll have no friends.

Finally, if you don't go outside you won't get any exercise so then you'll be fat and won't be able to see your friends.

In conclusion, too much tv will make your heath go down, the power bill will go up and you'll have no friends.

Australian Early Development Census

Building a national picture of child health

From May 2024, our school, along with thousands of others across the country, will participate in the Australian Early Development Census (AEDC).

The AEDC is a teacher-completed census (similar to a questionnaire) which provides a comprehensive picture of how children have developed by the time they start their first year of full-time school.

The AEDC is an Australian Government Initiative and is completed nationally every three years.

Children don't miss any class time while the AEDC is completed, and parents/carers don't need to supply schools with any new information.

The data collected through the AEDC is used by schools, communities and governments to better understand children and families' needs, and identify the services, resources and support they need.

AEDC data is reported at a school, community, state/territory and national level. AEDC results for individual children are not reported and the AEDC is not used as an individual diagnostic tool.

Some teachers have found that completing the AEDC made them more aware of the needs of individual children and their class, and that the data was useful for planning for transitions to Year 1 and developing programs.

Participation in the AEDC is voluntary, however the AEDC relies on all schools with children in their first year of full-time school participating in the collection. Parents/carers don't need to take any action unless they choose not to include their children in the census.

To find out more about the AEDC and how it is being used to help children and families visit:
